Dear Sir:

A communication was mailed to Applicant because the Examiner contended that the response filed December 2, 2008 was not fully responsive to the prior Office Action because of the following omission(s) or matter: Claim 36 was improper since the support for the amendment does not appear in the specification (i.e., the metallic band does not insulate the temperature sensor). Claim 61, paragraph (e) included a deletion of text by crossing out the word which is improper. Also, in claims 63, paragraph (c), "band connected tissue" appears to be inaccurate.

In response to the Examiner's objections, please amend the application as follows.
